8000 series laser all-in-one printer range

At your side.  
**brother**®

## The New Brother 8000 series. Increased office functionality – all in one compact unit.

Ideal for the small to medium office, each machine in the range offers fast and efficient mono printing, high quality copying and colour scanning in one space saving unit.

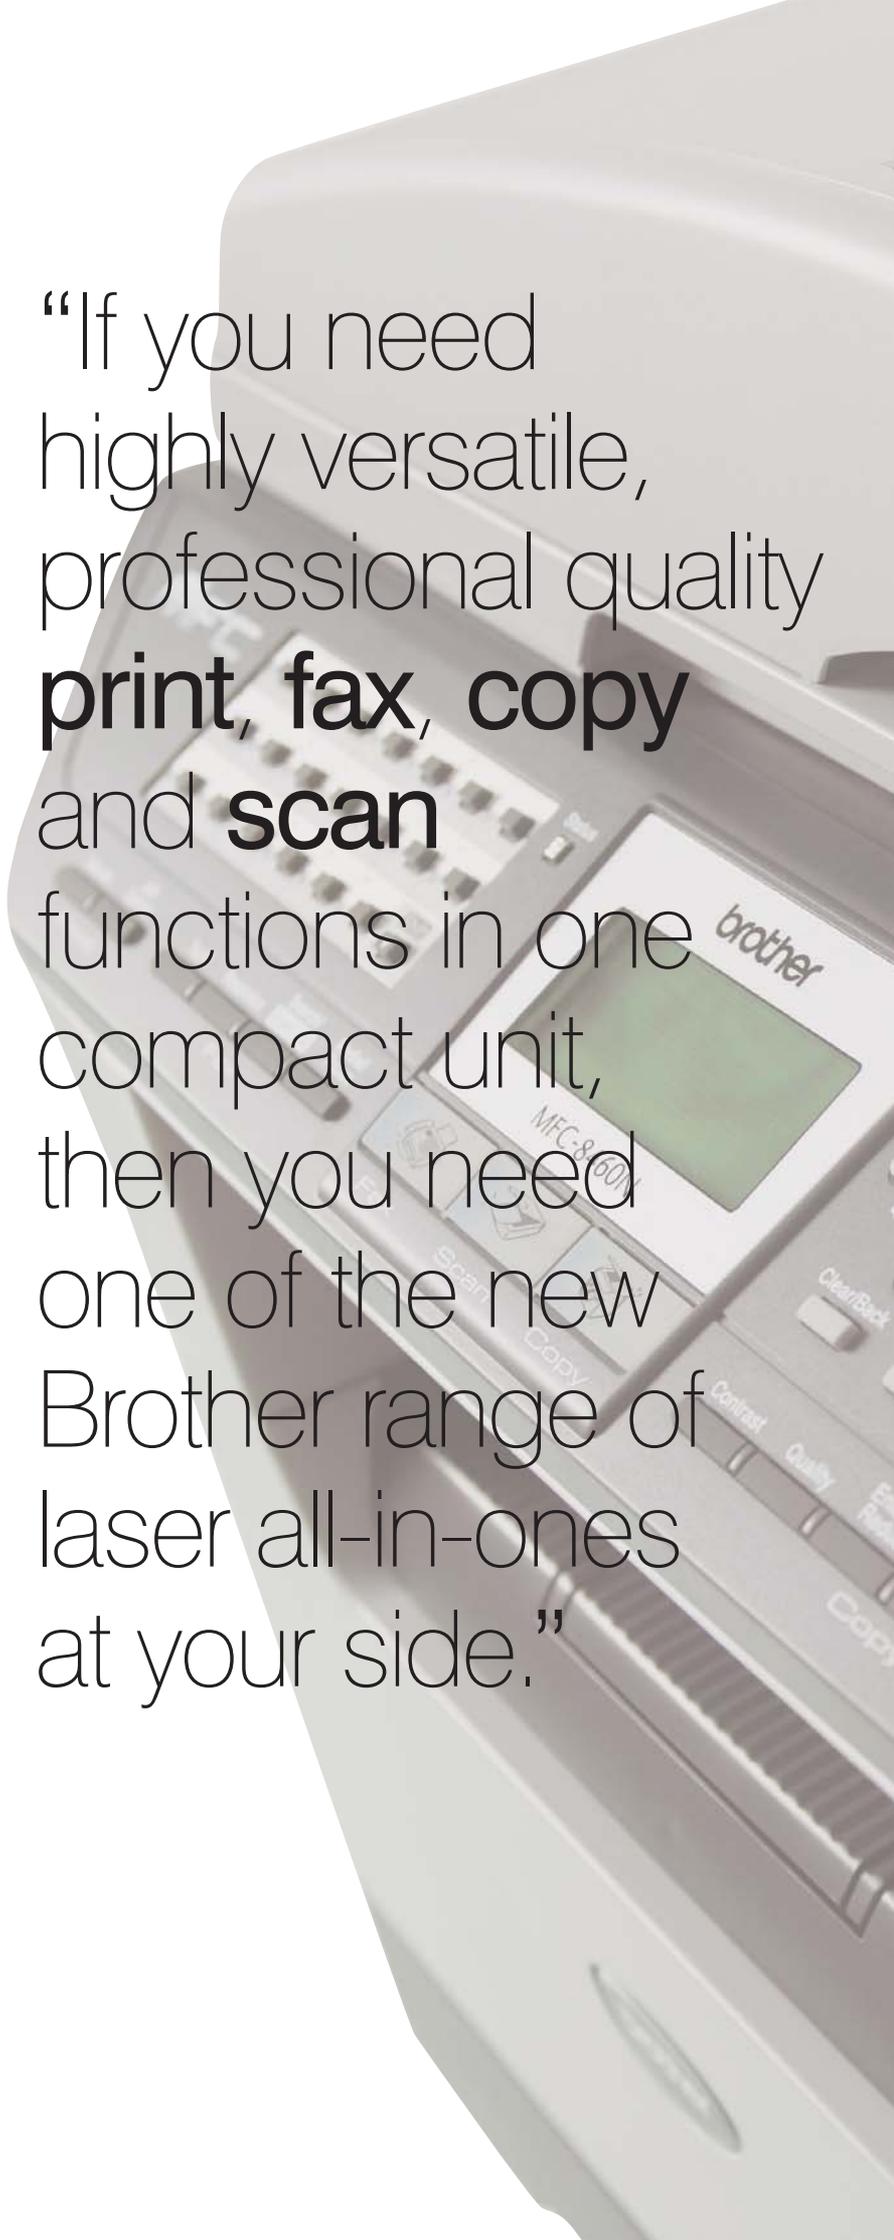

The 33.6K modem also gives the MFC-8860DN and MFC-8870DW fast faxing capabilities.

The DCP-8065DN and MFC-8860DN offer built-in network connectivity to improve the efficiency and productivity of your workgroup.

They are easy to install, easy to use and an optional lower tray is available on all models – sure to streamline communication and save your business time and money.

### What's in the range?

- DCP-8060 – print, copy and scan
- DCP-8065DN – automatic duplex, print, copy and scan  
– network ready
- MFC-8860DN – automatic duplex, print, fax, copy and scan  
– network ready
- MFC-8870DW – automatic duplex, print, fax, copy and scan  
– network ready  
– wireless and wired network

“If you need highly versatile, professional quality **print, fax, copy and scan** functions in one compact unit, then you need one of the new Brother range of laser all-in-ones at your side.”

**DCP-8060** A stylish, high-speed mono laser printer, copier and colour scanner that you can rely on to produce professional results.

With impressive print speeds and laser printer technology you can rest assured that all of your documents will be printed quickly and to the highest professional standards. Coping with the printing demands of your office won't be a problem thanks to the machine's generous and expandable memory.

DCP-8060

DCP-8060

- Up to 28ppm monochrome printing speed
- Up to 1200 x 1200dpi print resolution
- Up to 50 sheet multi-purpose tray
- Up to 250 sheet paper capacity
- Optional 250 sheet paper capacity
- Up to 50 sheet automatic document feeder
- PC free copying
- Up to 28ppm monochrome copying speed
- Up to 1200 x 600dpi copy resolution
- 25% – 400% reduction/enlargement in 1% increments
- Up to 600 x 2400dpi scan resolution (optical)
- Up to 19,200 x 19,200dpi scan resolution (interpolated)
- Scan to e-mail, image, OCR or file
- Optional network (NC-2100p)
- Secure print

print | copy | scan

**MFC-8870DW** Print, fax, copy and scan on both sides of the paper over a wired or wireless network.

The MFC-8870DW is a fast, high quality all-in-one unit providing laser printing, fax, copier and colour scanning facilities. Product locations are no longer an issue as network connectivity is enhanced by supporting both wired and wireless network – making this ideally suited to any office environment.

Features as per MFC-8860DN plus:

- Wireless network (IEEE802.11b/g)

## 8000 Series solutions from Brother

**Secure Print** In an increasing security conscious climate, this feature ensures complete document security. Any document printed using secure print will stay in the memory until the user with the correct PIN prints the document.

**Secure Function Lock** The function lock feature allows the administrator to decide who can use which feature of the machine: Print, Copy, Scan, Fax or PC-FAX. A manager may need all functions, but a secretary may only need to copy. The access is decided by a 4 digit PIN code.

**Duplex** Automatic duplex allows you to print and copy on both sides of the paper which helps reduce paper and business costs. In addition this will allow you to scan and fax documents into duplex format.

**Network Ready** Standard wired (DCP-8065DN & MFC-8860DN) and wireless (MFC-8870DW) Network Connectivity enhances your all-in-one into a workgroup machine. Designed to implement into the majority of networks and supporting industry standard speed and protocols. This means all features can be run on your company network.

Brother provides a number of tools to help you proactively manage and administer your network-connected products such as Web Based Management, BRAdmin Professional featuring e-mail notification. Visit <http://solutions.brother.com> for further information.

**iFAX** Also known as Fax over IP, iFAX allows documents to be faxed anywhere in the world over the internet, without the use of a telephone line, therefore reducing telephone call charges.

**LDAP** This allows the machine to integrate with a directory server to look up contacts and e-mail addresses. Documents can then be scanned as PDF, TIFF or JPEG formats and sent anywhere in the world using Scan to E-mail, or iFAX.

**DCP-8065DN** A network-ready mono laser printer, copier and colour scanner with automatic duplex – perfect for the demands of the small workgroup.

With duplex and network built-in, the DCP-8065DN makes network printing, copying and scanning of two-sided documents really simple. At print speeds of up to 28ppm it's fast and efficient. The DCP-8065DN can handle a variety of media sizes, with the 250 sheet A4 paper tray accommodating a range of paper sizes including A5 and A6.

You can print on both sides of A4 paper, keeping costs down as well.

Features as per DCP-8060 plus:

- Automatic duplex, print, copy and scan
- Network ready

duplex

DCP-8065DN

**MFC-8860DN** A network-ready all-in-one printer with automatic duplex. Print on both sides of the paper for professional quality documents.

This new, high quality and professional network ready all-in-one offers faster laser print, fax, copier and colour scanning functions at the touch of a button. The fully automatic duplex feature allows all documents to be printed on both sides of the paper, providing professional results at all times.

Features as per DCP-8065DN plus:

- Fax 33,600bps modem
- Automatic duplex fax
- iFax. Fax over internet
- LDAP compatible

fax
