

**FAX-T104**  
The compact, stylish  
fax with integral phone.

... always at your side

# FAX-T104

## A small, stylish machine with advanced business functions as standard, plus an integral telephone.

With an integral handset, easy to operate numerical keypad and clearly labelled functions, the FAX-T104 offers a professional solution to your telephone and fax needs. In telephone mode users have the benefit of an on-hook dialling facility in addition to a background melody whilst callers are on hold.

The FAX-T104 has been built with efficiency at the forefront of its design. Your most common fax destinations can be stored in the one-touch dial facility and there is speed dialling for up to 100 names via simple navigation dial keys.

With a paper capacity of up to 30 A4 sheets and a 25 page<sup>†</sup> memory, vital fax messages are never missed.

The automatic document feeder accepts up to 10 sheets, enabling you to send and copy multi-page documents.

The FAX-T104 is designed to be both quick and easy when selecting any of the advanced business features – including the ability to send the same fax message to a number of recipients simultaneously, saving time and effort.

It also offers a number of useful copy functions such as the ability to automatically sort multiple copies, as well as the option to reduce or enlarge documents from 50 - 150%.

**All the professional quality you expect built into a compact and stylish machine that is ideal for the small office or home**

<sup>†</sup> ITU-T-Test Chart No. 1, Out of Paper Reception, ECM Mode.
